

Hye.. Thanks because you buy this ebook.. In this ebook Im gonna reveal to you two simple things that I have done to generate money daily On Autopilot...!!!

If you combine these two methods im guaranteed you will make money through paypal daily...!!!

How I Make **Money Daily Through** Paypal On Autopilot..!!!

First let me tell u im full time internet marketer since 2008 and im from Asean... Doing some office work under the boss is not my passion. Why? Because I have stuck in the traffic jammed in early morning, get scolded by my boss. Rushing whereover.

My life became ruined.. I don't know what else should I do except act like a numb person. I have to pay rent,bill, going out with my family. So I have to work althought im never like it.

Until I find very simple job and it can give me a big money in short of time.

Be an Internet Marketer.

Yep... For 2 years im doing this, research all kind of things like cpa, ebay, adsense, clickbank and many more....

And now im just sit back and relax manage order from my clients.

I wake up in the morning, open my email, and check how much dolar I get for that day...

Very simple and now im going to reveal you my method how I make money daily on Autopilot as easy as I eat hamburger ☺

Oppsss... Before that im gonna reveal to u 2 of my methods to make these things work out. U can choose what kind from these two methods suit to you.

My advice is you must work these two methods to generate multiple income...

So shall we start now? ☺

P/s : Im from asean so my speaking did not work properly.. But I try hard to give you all my easy languages so you can make big money too..

Method 1

Selling info product like a hot cake

If u look at this pdf file you must be thinking where do I get the content to write this method right? As I said all this from my experienced. Where I got my experience? From what im buy, read, take action. It's all gain experiences...

U know what, when I first step in internet marketing, im buy other's product, everything until overload. Then when I reached at one moment I start thinking, why I bought all this kind of ebook, video, mp3 since im not TAKE ACTION?

Everybody who sell the info product 75% called themselves GURUs to make big profit in selling info product.

Now Im gonna show you how to make your info product although you not a GURU of Internet Marketing Niche.

Firstly... You must make info product in internet marketing niche so this will convert your sales..

' How can I make info product Since I have Zero experiences?'

Great question...

Not hard at all.. Go find some product.. In Wso normally when u can find products in niche internet marketing.. Buy it..

After that you work the method out.

Examples you buy the product how to make money in domain flipping.

U must try to flip the domain.. Once you success you can compile your experienced as case study..

Package them in a pdf file. Then go sell it... ☺

Understanding right?

But where to sell your info product and make a big money without spend money to buy domain, hosting and create webpage..

Simple, you must sell your info product in forums.. Like Wso, digital point. Wickedfire and many more

Try looking high ranking forums...

In this case I prefer you to sell at digital point forum first because it's in internet marketing niche.

And what is more important we do not pay any single cent to open the thread..

Ok just go to <http://forums.digitalpoint.com> and create your account there.. If you already have an account just make sure your post have more than 50 posts.. Because we are going to build buyer's trust..

According to my experiences to sell info product needs versatiles...

Ok lets follow this easy steps..

I'm saying you have your info product now or you can find plr product then rebrand it....

TO sell info product In forums you must to calculate these things

- 1- Title
- 2- InCome Proof
- 3- Sales Letter
- 4- Testimonial From Buyer/ Give Away some Copies

Title...

Title is first impression to show your product's look like what... As example...

	<input checked="" type="checkbox"/> (((RE-OPENED))) How Can A Complete Newbie Generate Consistent \$200+ Days With NO Setup Costs?? (1 2) mike gregory	03-31-2011 05:17 PM by mike gregory	96	7,401
	<input checked="" type="checkbox"/> [*New Launch*] Discover the simple secret I used to generate \$708.50 in 1 day New Blogging System williamtan	03-31-2011 07:46 PM by williamtan	15	353
	<input checked="" type="checkbox"/> Exactly How I Went From \$0 To Multiple 6 Figures With Google... Samuel	03-31-2011 08:29 PM by Rose C	14	190

If u look at title in red circle.. There have an AIDA (Attention, Interest, Desired, Action) So many views that Wso has...

Compare to last one wso under it.. (Sorry if that your Wso.. I Have to say that.. Peace.. ☺)

Title main focus for buyer to click your thread.. If your product power but you doesn't have the power of title it's meaningless..

Income Proof...

This is one of important things you must have.. Example you sell a technic that generate income through autoblog. But you doesn't have any income or autoblog yet.. You will make people who view your thread get sicked and start to think you is a scammer...

You sell a technic that got income through paypal or a technic that generate income through ebay.. Show them your proof how much you get from a single day.. It will be more valueable.

For long time business lets work it out first.. Got proved then show them.. It will be increase your sales...

Sales Letter...

Sales letter also is a big role to convert sales... According to my experiences since im not English resident so my English not proper enough so I have to make my sales letter straight to the point.

And one more your buyers also are coming from over the world... And it might be they don't use English as their first conversation right?

So what we have to put in our sales letters are key point to our product... Show what kind of thing related to your products, what the type of level your product is. Give some short, simple but powerful point.

Testimonial From Buyer/ Give Away some Copies

Here's the main part to attract the people to buy from you.. Give some copies to people at first you open your thread/Wso..

Why is it important?

People who wanna buy your product want their money spend on something valuable...

I have 2 ways to make this happen...

First give it to people when you open your thread/wso

Secondly give it to people of your choice.. That's means before you open your wso/thread make sure you contact the person personally and ask nicely them to review your product..

My advice avoid to give the review copies to member who have post less than 50 and who just registered to that forum...

People might think you have create another account or something like that.

Easy right.. Last thing if u don't wanna make a big deal try to find some plr ebook and rebrand it...

So how you gonna promote your thread?

In this case im gonna show you im using warrior forum, you also can use the things similar to what I've shown you in another forums..
