

The Lazy Man's Way To Making Money Online

This is a FREE report – You Can Do Anything You Like With It – Give It Away, Use It As A Bonus, Add It To Your Membership Site

If you're the kind of reader that believes that quantity equals quality then you may be disappointed with this special report.

It's just 5 pages long

However it contains a marketing tactic so wickedly powerful it can be used to make effectively FREE money -

- And if you're like me, I'm sure you'll agree that's the best kind ☺

Now before we get into this proper let me clarify my position here by saying there are hundreds of ways to make money on the internet.

For example - You can sell information, sell products on eBay, start a membership site or even just promote other people's products.

***Today I want to talk about the last one on that list -
Affiliate Marketing!***

As an affiliate there's no need to create your own products, spend hundreds of hours researching and then spending even more time compiling all of that information into a product you hope will be a good seller.

You can simply take advantage of other people's hard work, research and ideas and promote their products helping both you and them in the process.

Call it the **lazy man's way of making money online**, but becoming an affiliate is probably the easiest way to start bringing in cash. (*Once you know what to do*)

But If It's Easy – Why Do So Few Affiliates Make Any Money?

The simple answer to that is they don't know what works . . .

If that's you or if you'd simply like to put your affiliate income on autopilot then keep reading because I'm about to share with you a **Dirt Simple Affiliate Tactic That Works!**

Are You Ready – *'Cos this is so simple you might just miss it!*

Over the years I've tried various methods to increase my affiliate income whilst working less for it – By far the easiest way is this:

- 1.** Find a topic you're interested in. *(Or you know is a highly profitable niche and can stand doing some research in)*
- 2.** Find a few affiliate programs that fit into that category and join them.
- 3.** Set up a web site, with an email subscribe form and free articles.
- 4.** Create a free ecourse or a low cost product **with master rights** and upload it to an autoresponder.
- 5.** Write an ezine ad copy for your free course or 'special report' with rights.
- 6.** Advertise it everywhere you can
- 7.** Give it away or sell it cheap
- 8.** Backend your affiliate links inside the course/report.
- 9.** Follow up with the people that signed up for it with similar affiliate offers, cross sells and upsells.
- 10.** Create another free course/master rights product and start all over again.

In essence we're talking about creating **VIRAL** promotion tools!

Now I know what you're thinking . . .

“ But Simon - Didn't you say promoting affiliate programs was easy – **now you're now telling me to create my own products to promote them!** “

Don't worry - Keep reading and I'll show you where you can get EVERYTHING done for you.

A Constant Stream Of FREE Money!

Yes really, once you set up these little viral profit tools money will continue to come in for months **even years to come** . . .

. . . While it may not be thousands each week, I get checks for \$20, \$50 or a \$100 (and sometimes a lot more) on a regular basis.

I'm receiving these every week - for a few day's work that I did years ago.

When you add the checks up it's tens of thousands of dollars every year - FOR PRACTICALLY NOTHING!

And all thanks to the power of affiliate programs and viral marketing.

Ok, lets get down to the nitty gritty.

I guess most of the people reading this report already know about this method - It's hardly a secret, however most would be affiliate superstars don't bother to use it and are losing thousands of dollars every year because they don't.

Here's Why They Fail -

The 'real' secret to this is,

You've got to create a continuous stream of these products for them to be effective . . .

Yes even one product or course can bring in money but for massive results you need to create hundreds of them - All circulating the Internet, all spreading your affiliate links and working for you 24 hours a day, 365 days a year.

And that's where most people go wrong. They create one or two 'viral' products then find creating more is too much like hard work.

I understand the thought process . . .

They **don't** make any money on the front end (*they're not meant to*)

They **don't** get fast enough results (*These little affiliate landmines need time to grow and spread.*)

And you need to keep **more and more** products coming...

The more you create, the more you'll ultimately make - **Simple!**

Now this report is called the 'The Lazy Man's Way Of Making Money Online' so here's something that will blow your mind..

That's all there is to this report –

You have the 'secret' to creating the nearest thing to free money online there is and it took all of 5 pages.

But here's a bigger secret -

From **Tuesday August 8th 2006** you don't even need to create your own viral affiliate tools!

To find out how you can have literally EVERYTHING DONE FOR YOU visit: <http://www.affiliateenhancer.com>

This is what will be handed to you on a silver platter . . .

1st - You will be able to sell these 'Viral' Landmines and keep 100% of the profits you generate from every sale!

2nd - You will be able to brand each of these 'Viral' Landmines, so when your customers are using them - if they order any of the products recommended within them - you'll receive a commission for those sales!!!

3rd - You'll have the ability to give "master resale rights" to your 'Viral' Landmines... This is **powerful** because while your customers will be able to sell the products - they won't be able to brand them.

So everytime any of your customers (or their customers) make a sale - it will still be branded with **your** affiliate links - so you'll receive commissions on **ALL OF THEIR BACKEND SALES AS WELL!!!**

Do you see how powerful that is?

The more you sell - and the more your customers sell - the more your links will be out there and the more chances you will have to earn those big affiliate commissions!!!
